

A Group of Finnish Students
at SaloneSatellite in Milan
on 9–14 April 2013!

Come and explore new and fresh design at our stand.

The prototypes reflect respect for Finnish design traditions seasoned by humour and joy. The models on display include furniture, storage solutions and lamps. Colour is brought to the stand by knitted blankets - convenient to use also as neck support cushions.

The works have been selected by a jury in the Degree Programme in Design at Helsinki Metropolia University of Applied Sciences. The designers study interior architecture, industrial design or textile design at Metropolia and also a few recent alumni are present. Some of the students have already received awards and have shown their works at the Habitare, Protoshop, design fair in Helsinki. The designers present in Milan are *Reetta Ahola, Taru Arko, Reeta Cagnani, Lauri Hiilinen, Tanja Kallio, Pasi Kärkkäinen, Kristos Mavrostomos, Juhana Myllykoski, Hanne Palomäki, Juulia Paloranta, Leena Raudaskoski, Mikko Siponen and Thomas Tallqvist.*
